One-stop Solutions for Smart Furniture & Hospital Beds

Who we are

DewertOkin Technology Group Ltd. is a subsidiary of Phoenix Meccano Group in Switzerland. Its two brands, Dewert and OKIN, are originated in North Rhine-Westphalia, Germany, counting over 40 years of history. With 5 production bases in Asia-Pacific and Europe, and a total of nearly 3,000 employees, DewertOkin provides integrated hardware and software solutions for Smart Home, Smart Healthcare, Smart Office and other scenarios.

Under the brand OKIN you can find a wide range of products for smart furniture (such as motion upholstery, massage chairs, theatre seating, recliners and adjustable beds) and adjustable office desk and chair systems. Whereas the brand Dewert offers high performance products for medical applications (such as medical and nursing beds).

The first in the industry to propose a One-stop Smart Solution concept, our company serves more than 1/5 of the world's smart furniture manufacturers and is the preferred supplier of many world-class brands. Present in over 24 countries around the world, DewertOkin is a true industry leader.

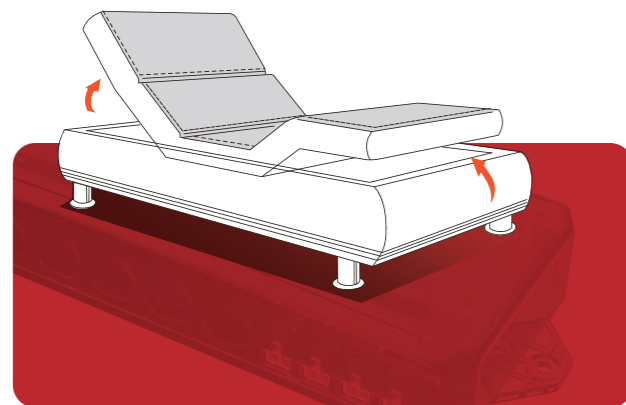

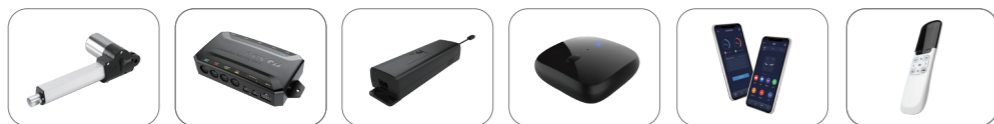

One-stop Solutions for Smart Furniture & Hospital Beds

Seating

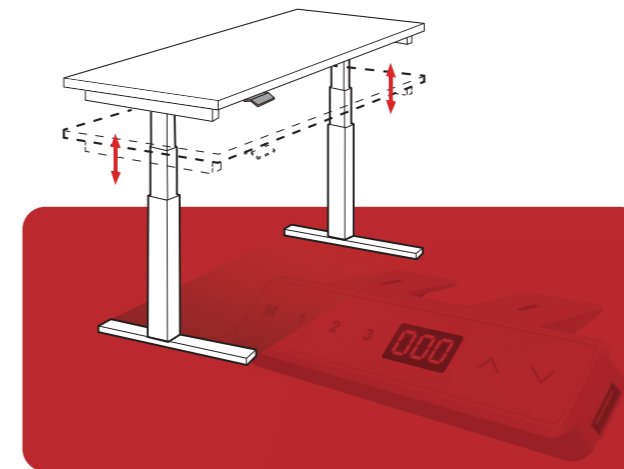

Mechanisms Control System
 Voice Control and APP Solutions
 Lifter, Recliner and Massage Chairs
 Wide Range of Accessories

Bedding

Smart Bed Control Solutions
 Smart Voice Control System
 Smart Sleep Monitoring System
 Smart Lighting & Ambience Control System

Office

Smart Desks Control System
 One-touch Lift and Memory Positions
 Anti-collision Safety Feature
 Shared Office Control System

Medical

Smart Medical Bed Control System
 Vital Signs Monitoring System
 Life Care Systems

Global R&D and Innovation Centers

Over **40** years focusing on the development and innovation of One-stop Smart Solutions.

5 innovative R&D centers around the world with post-doctoral workstations as the core.

Over **1,500** patents, including more than **900** patents for inventions.

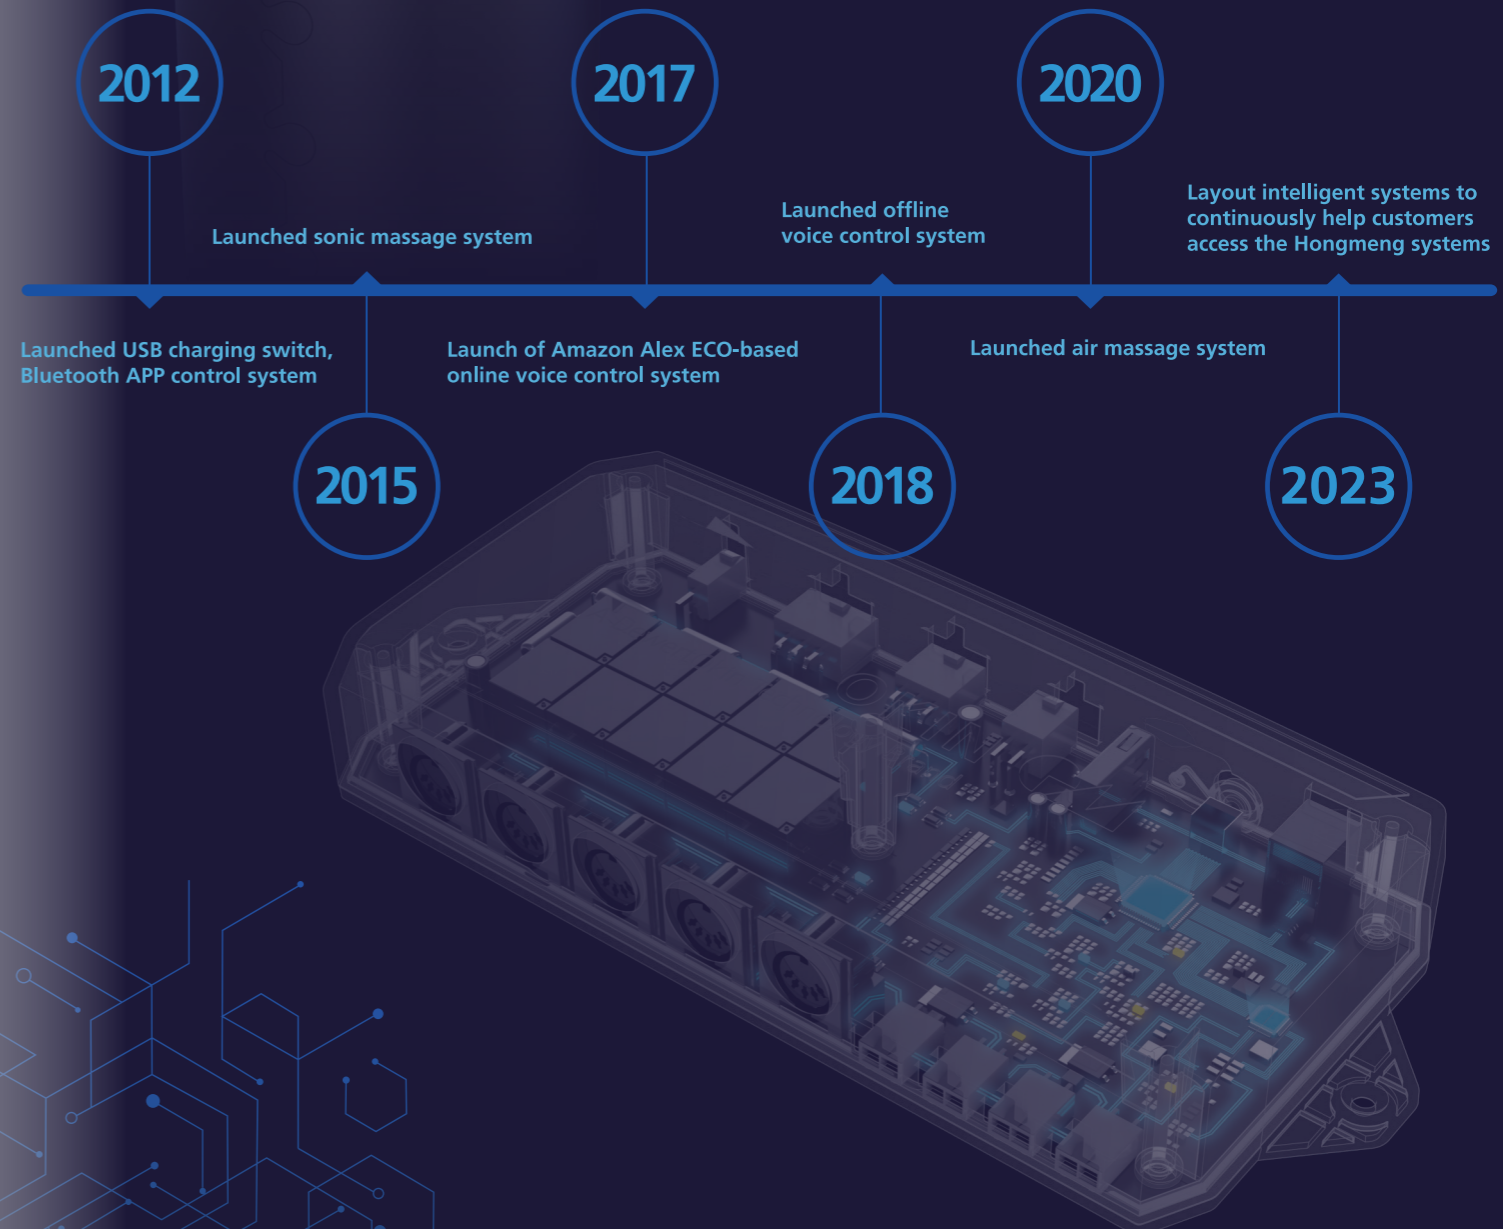

DewertOkin Technology Group currently has more than 200 R&D technicians, mainly located in China, Germany, Hungary, Italy and other countries.

Our R&D teams are committed to developing innovative products and complete systems for Smart Home, Smart Office, Medical and Nursing Care among others. Our R&D Center has extensive capabilities, including industrial and structural design; tooling; linear drive, mechanism, sensor, embedded hardware and software development; front-end, smart app, server design and development; AI algorithms and so on.

- In May 2021, we set up the first high-level national laboratory in the industry accredited by China National Accreditation Service for Conformity Assessment (CNAS), which sets up a new level in product quality testing and provides more reliable technical support for product research and development and quality improvement.
- Awarded the High-tech Enterprise Certificate from the Zhejiang Province, and also also meets the national light industry and Zhejiang manufacturing group standards.
- Approved by authoritative certification institutions

 **German Quality**
Over 40 years of experience

Asia Center Smart Factory

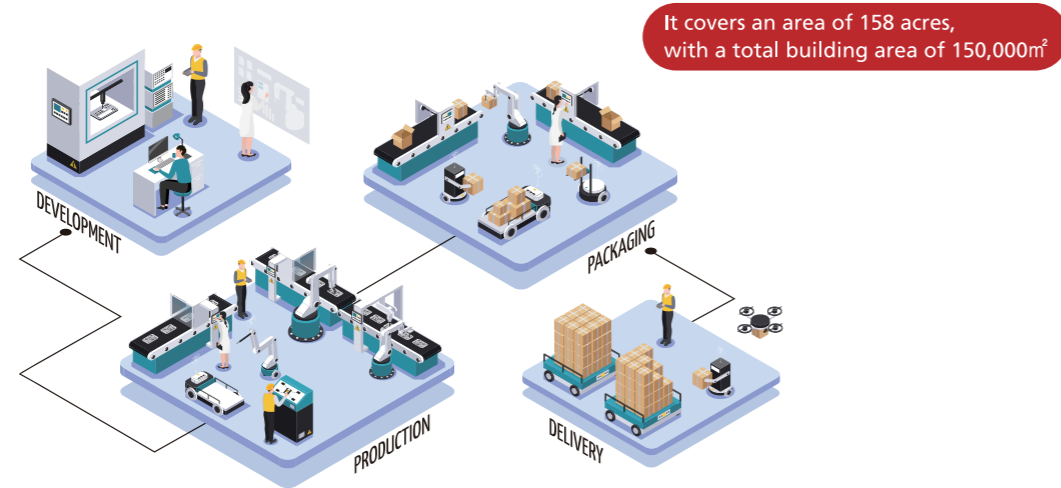

One-stop Smart Solutions from order to delivery

Dedicated to building an industry benchmark factory with automation and digitalization as core, DewertOkin Industrial Park covers an area of 158 acres and counts three major production and manufacturing segments - Smart Home, Smart Office and Smart Healthcare.

Our production covers 7 core processes for vertical integration. The manufacturing includes both semi-automated and fully automated processes and enables just-in-time deliveries.

The production processes are digitally connected, allowing us to maintain full control of all process at all times, ensuring quality and time control. The principles of lean management, cost efficiency and ease of assembly are always considered to the highest degree.

Maintaining the German original design and exquisite craftsmanship, we follow the global standards for raw material, German advanced flow for production lines, and global standard of quality to ensure the accuracy, stability and reliability of our products.

Motor Production Workshop

20,000 pcs Daily production capacity
> 99% One-time pass rate

Injection Molding Workshop

38 Precision injection molding machines
> 80% Self-made parts rate

Drive Final Assembly Workshop

26 Assembly lines
> 10 million Drives annual production

Electronics Workshop

2 SMT patch lines, 3 DIP production lines
25 Lean control system assembly lines

Office Lifting Columns Workshop

Over 10 million sets annual output

Spraying Center

2 Automatic spraying lines
Electrostatic powder coating
German "Henkel" pre-treatment
Swiss "Golden Horse" spray gun

Column Production

Automatic test equipment for sound, vibration, offset, speed, hall

Metal Parts Processing Center

Tube laser cutting
Flat laser cutting
Bending, Stamping
Robotic welding
